Press Release

CYBONET REACHES DISTRIBUTION AGREEMENT WITH REAL SECURITY

Haifa, Israel - 2 January 2017: CYBONET is pleased to announce the establishment of a new partnership agreement in the Adriatic. REAL security is based in Slovenia and specializes in the distribution of software solutions and the engineering of complex computer networks for customers such as banks, governmental organizations and telcos in the region. REAL security provides high quality, reliable and proven solutions in the areas of advanced threat protection and endpoint protection, content security, SIEM and application analysis, amongst others.

On CYBONET's new distribution agreement with REAL security, Graham McIntyre, Regional Director Europe and Nordics, comments: "REAL security is a known leader in security solutions for the Adriatic, and we are proud to welcome such an established name in the regional market to our partner network. We are confident that REAL security's vast experience and commitment to the channel will enable CYBONET to increase our footprint in the area and allow us to better serve the region's business community with our comprehensive security solutions."

Through this partnership, REAL security becomes the primary supplier of CYBONET's complete line of cyber security solutions in the Adriatic region, including Cybowall; our new endpoint detection and response solution, currently undergoing successful beta testing and due for release Q1 2017.

ABOUT CYBONET

CYBONET, formerly known as PineApp, was originally established as an Email Security Solutions Company. Since 2002 CYBONET's internet security and network control products enable SMB/Es and Telcos to comprehensively protect their critical network infrastructure. Whether through the flagship PineApp Mail Secure solution or the next generation of Cyber Protection solutions, CYBONET is dedicated to security.
