## CYBONET AND CHECK POINT PARTNER ON EMAIL SANDBOXING SOLUTION

Haifa, Israel - January 10, 2017: CYBONET announces a new partnership with Check Point Software Technologies Ltd. CYBONET has released a new Email Sandboxing Module for the PineApp Mail Secure Solution that leverages Check Point's SandBlast Technology. By utilizing Check Point's SandBlast Technology, CYBONET customers will receive even deeper detection, inspection and protection against the most dangerous zero-day and targeted attacks on the network.

SOFTWARE TECHNOLOGIES LTD.

“Email remains the number one vehicle for ransomware entering an organization. Stopping malicious email attachments containing ransomware represents a core priority for organizations.” said David Feldman, CYBONET CEO. “With our newest PineApp Mail Secure release, we wanted to add an additional layer of security and Check Point’s SandBlast Technology is second to none in catch rates of unknown malware, including today’s most evasive attacks.” Sandboxes execute unknown malware in a segregated and tightly controlled environment. By monitoring and analyzing their execution, sandboxes allow for the identification of previously unseen (zero-day) malware. Since it is not necessary to have seen a specific threat before, sandboxing promises to identify advanced malware and zero-day threats, without alerting the malware to its presence.

Check Point Software Technologies is a worldwide industry leader in securing the internet. Check Point ensures that internet communications and critical data are secure, reliable and available everywhere. CYBONET is proud to partner with Check Point Software Technologies to provide the most comprehensive Email Security Solution.

### ABOUT CYBONET

CYBONET, formerly known as PineApp, was originally established as an Email Security Solutions Company. Since 2002 CYBONET's internet security and network control products enable SMB/Es and Telcos to comprehensively protect their critical network infrastructure. Whether through the flagship PineApp Mail Secure solution or the next generation of Cyber Protection solutions, CYBONET is dedicated to security.
